An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Robert A Miller on 1/6/06.

The application has been amended as follows:

Claim 15, line 2, cancel "working surface of said support body" and insert --backing layer--.

Claim 15, line 3, cancel "working surface of said support body" and insert --backing layer--,

Claim 15, line 4, cancel "working surface of said support body" and insert --backing layer--,

Claim 16, line 2, before 'comprising', insert --further--.

The following is an examiner's statement of reasons for allowance:

The claimed invention is allowable over the prior art of record because said art <u>fails</u> to teach a method of making a vitrified bond tool, wherein the vitrified bond tool has the claimed structure and is made by a method which comprises all of the claimed specific steps.

After further review of the claims and applicants remarks, all of the indefinite rejections have been withdrawn since applicants remarks establish clarification of the claims. In view of

this, it is the examiners position that one skilled in the art would understand the metes and bounds of the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
